## Forest Food for Wildlife: Enhancing Mast Production

Friday, November 2, 2012

9 - 3 pm

Knox County Health Department  
11660 Upper Gilchrist Road  
Mt. Vernon, Ohio 43050

Registration - \$35

Registration deadline - October 26, 2012

## Forest Food for Wildlife: Enhancing Mast Production

Mast? What is that word? What good is it to wildlife? Mast is essentially the nuts, berries, and seeds of trees that serve as a very important food source to many species of forest wildlife.

Join us for this day-long workshop focused on the identification and enhancement of the mast producing trees in your woodlot. During our discussion of a variety of mast producing species and their different nutritional values, we will focus on management strategies that will improve mast production and attract wildlife.

**Class Fee: \$35**

Up-to-date class location, information & registration is available on our website at:

<http://woodlandstewards.osu.edu>
