

TPR respondents reported an overall improving market, with active buying and selling across the state. Average log prices were largely up across the higher grades of logs for all species, except yellow-poplar and red oak prime. Cherry was quoted as still being soft; stumpage was outperforming sawlogs, but both were improving. Red and white oak were said to be moving well. Red oak stumpage was up across the state. #1 and #2 oak log prices showed double digit improvements. Statewide stumpage prices were up as well for most species. Prices in the Northeast rose across species. The Appalachian hardwood lumber index improved 11% over the Spring reporting period.

This report was funded in part by the Renewable Resources Extension Act.  
 Comparison of prices paid for Ohio SAW LOGS by Region, Doyle Scale - Sept-Nov 2012 (Fall) to Mar-May 2013 (Spring)
