Forest Health: Non-native Invasive Plants

Landowners are being faced with the challenge of numerous invaders - from plants to insects. Invasive plants left unchecked in a woodland can have long reaching impacts on forest health and the wildlife it harbors. What plants pose a problem? What can you do? We will explore some of the more common invasive plants in Ohio and talk about their impact on wildlife. We will discuss control options and spend time in the arboretum learning about their control program.

Agenda

- 9:00 Registration
- 9:30 Welcome
- 9:35 Introduction to Invasive Plants
- 10:05 Wildlife and Invasive Plants
- 10:45 Which Plants Should You Look For?
