Nature vs. Nurture Tree ID

Being able to properly identify trees is a critical part of any diagnostic exercise. However, while there are dichotomous keys that can help identify native trees there is no such document when it comes to horticultural taxa. This class will introduce some key tree ID concepts then compare and contrast the process as we take a look at similar horticultural varieties.

Class Fee: \$35 Class includes indoor and outdoor sessions - dress appropriately. Lunch and materials are included in the class fee.
